

FRENCH CAPTURE TWO IMPORTANT WOODED TRACTS

Take "Z" Wood and Damery Wood By Brilliant Maneuver

WITH THE BRITISH ARMY IN FRANCE, Aug. 16.—3:15 p.m.—(By The Associated Press.)—By a brilliant maneuver, the French have captured "Z" Wood and Damery Wood. In these two wooded tracts the Germans have been holding out desperately for several days.

There were virtually the last of the really more important positions on the new front to which the enemy has been holding and which the allied forces desired. The enemy launched a heavy attack last yesterday against the new positions at Damery. After sharp fighting he was repulsed leaving 150 prisoners.

Other purely local actions had been fought here and there along the new front today.

The British have captured 260 prisoners and four machine guns. The casualties in killed and wounded inflicted upon the enemy in these local affairs are estimated to be at least 1,300. To the north in the direction of La Couronne the lines of the British have also been advanced slightly. Artillery activity continues along the entire front, especially in the new Somme battle area, but the enemy does not seem to desire to launch an extended infantry attack at Roye and Chaumont, where he is strongest. It was learned today that since August 8, the Germans have employed 36 divisions on a front of 48 miles. Of this number twenty-one were in the line at the beginning of the Somme attack the other fifteen being brought in as reinforcements.

It is learned from prisoners recently captured that the British artillery during the past few days has caused considerable destruction within the enemy lines. The British guns have been especially active in searching out German ammunition dumps, a number of which have been destroyed.

Huns Attempt Retaliation.—With the American Army on the Vesle front, Aug. 16.—(By The Associated Press.)—The Germans launched a combined attack upon the French and American positions along the Vesle front in retaliation for a bombing raid by American airmen on bridges over the Aisne Thursday.

The German artillery continued shelling the cross roads south of the Vesle for hours on the assumption that the French and Americans were bringing up troops. German aviators bombed the woods and villages south of the Vesle, apparently working in relays.

A group of twelve American aviators participated in the raid on the Aisne bridges. Early Friday morning American flyers took photographs.

A great deal of traffic has been reported passing over the Aisne bridges and the French and Americans increased the fire of their heavy guns in an attempt to destroy as many bridges as possible.

As a result of the reports of observers, the French box barrage today Thursday night on machine gun nests along the hills to the northwest of Fismes. Observers and patrols reported Friday morning that twelve machine guns had been destroyed and every German gunner killed.

Repulse Counter-Attack.—London, Aug. 16.—The British today evening repulsed a strong German counter-attack at Damery and today in co-operation with the French made substantial progress in the direction of Fresnoy-les-Roye and Fransart according to the official report from Field Marshal Haig's headquarters in France issued tonight.

The text of the statement says: "Yesterday evening the enemy launched a counter-attack against our new positions at Damery. His troops were everywhere repulsed with great losses, leaving 250 prisoners and a number of machine guns in our hands."

"Today our advanced troops in this locality have pushed forward in co-operation with the French and have made substantial progress in the direction of Fresnoy-les-Roye and Fransart. We have taken a few prisoners."

"On the remainder of the British front there is nothing to report except ordinary activity on both sides in different sectors."

Gain on Three Mile Front.—Paris, Aug. 16.—French and Canadian troops have made progress against the Germans over a front of more than three miles between Gouyencourt and Laucourt, west of Roye, according to the French official communication issued this evening. The Bois des Loges, five miles south of Roye, also was penetrated deeply by the French.

The text of the communication follows:

"During the day our troops by a series of local attacks have repulsed the enemy in spite of his resistance in the region west of Roye."

"North of the Aisne, in conjunction with Canadian we have advanced our lines in the front

AMERICAN WOMEN PLEDGE COMRADSHIP

Send Cablegram to Allied Woman's Mass Meeting in Paris.

(By The Associated Press) Washington, Aug. 16.—Comradship of American women is pledged in a cablegram sent today to the Allied Woman's mass meeting at Paris by headquarters of the Y. W. C. A. War Work Council.

"The National War Work Council of the Y. W. C. A. of America sends Allied Women's mass meeting in Paris sympathetic greetings," the message says. "Today we stand united in a common purpose to win a righteous war and to bind the wounds inflicted by war. Inspired and strengthened by your example we pledge you a comradeship of loyal service in all your work."

The meeting at Paris is attended by prominent women of England, France and America and will continue until August 19. Similar meetings are being held this month in India, China, Japan, Australia, Canada and South American countries.

NAVAL PATROL BOATS TO PROTECT FISHING FLEETS

WASHINGTON, Aug. 16.—Steps to protect the fishing fleet off the coast of New England from German submarine raiders have been taken by the navy. Secretary Daniels announced today that where the vessels operate in fleets as is the general custom naval patrol boats hereafter will accompany them to their banks and there maintain guard.

Protection of the fishing fleets was decided upon as a food conservation measure as much of the nation's fish supply comes from New England.

HEAD FRENCH MISSION NOW IN U. S. DIES

Former Minister of Labor in France Dies from Stroke of Apoplexy.

A Pacific Post, Aug. 16.—Albert Metin, head of the French economic mission now in the United States, former minister of labor in France and minister of blockade died here at midnight last night from a stroke of apoplexy.

M. Metin was stricken early in the evening shortly after his arrival here with the mission of which General Paul Geraud Pau, noted French military leader was joint head.

Physicians who attended M. Metin ascribed the stroke due to exhaustion brought on by his journey to this city.

The body of M. Metin will be taken at once to France for burial according to statements by members of the mission.

M. Metin was 49 years of age and leaves a widow and two small children, who are in France.

An elaborate program of entertainment arranged here in honor of the French mission undoubtedly will be abandoned, the chairman of the local committee said.

FIND WOMAN'S BODY.—Woonsocket, R. I., Aug. 16.—James Martain, caretaker of the Point Breeze Chautauqua grounds at Smithville near here yesterday found the lower half of a woman's body in a weighted sack in a water hole near the grounds, according to a note received today by Sheriff Milton C. Miller of Woonsocket.

The legs of the body had been sawed in two at the knees and indications were that the body had been in the water several weeks.

When discovered by Martin the sack containing the dismembered parts was floating on top of the water. A woman's hat was found in the sack.

COMMENDED BY DANIELS

Washington, Aug. 16.—Frank R. Willis, chief gunners mate of Minot, N. D., was commended by Secretary Daniels today for resourcefulness and presence of mind in preventing the sinking of a United States submarine on July 8 by quickly closing the door of torpedo tube thru which the water had burst when workmen opened it to extract a torpedo that had jammed.

of Gouyencourt, St. Mar-Les-Triots, and Laucourt. South of the Aisne we penetrated far into the Bois des Loges.

"Many of the east Aug. 15: In Albania, east of Pergans, the enemy renewed for the third time attacks which our troops repulsed. In the region of Gramis the enemy suffered severe losses in the course of fruitless reconnoitering."

"In spite of bad weather British aviators have bombed enemy organizations and concentration points in the Struma Valley."

"Aviation: On August 15, our crews downed or put out of action 23 enemy airplanes. Thursday night our bombing squadrons made several expeditions behind the battle zone and dropped more than 14 tons of explosives on railroad stations at Nesle and St. Quentin, and on Bivouacs at Champon and Gulsard, where several fires were observed."

"Other expeditions, flew over the valley of the Aisne and the region east of it and obtained excellent results. Four tons of explosives were dropped on the railroad station at Thionville and on the region of Metzereux and Charleville. A total of 25½ tons was used."

"The text of the communication follows:

"During the day our troops by a series of local attacks have repulsed the enemy in spite of his resistance in the region west of Roye."

WAR SUMMARY

New Activities on Various Battle Fronts Summarized Form By Associated Press.

Evidently it is not in the plans of the entente allied to leave the German secure in their possession of the line they are now holding in the region between the Somme and the Oise. Altho the front from the south of the Somme past Chaumont and running thru Roye to Noyon has been studded with fresh reinforcements and innumerable guns in order to keep back the allied troops, the Germans nevertheless have been forced to give ground and at points where seemingly their defence soon must crumble and the retreat eastward be resumed.

French and Canadian troops Friday night between Gouyencourt and Laucourt on a front of about three miles had fought their way west of Roye until they were virtually knocking at the door of the town which is one of the key-stone positions of the German defense in Picardy, while to the immediate north British troops fighting alone were still in possession of Damery and Pavillers following heavy counter-attacks made by the Germans to dislodge them.

West of Roye the allied line is now only a scant mile and a quarter distant. Adding materially to the danger of Roye by direct assault on the part of the French and Canadians at its western gates and from a flanking maneuver by the British on the northwest the French have carried out successfully an advance five miles to the south which seemingly lays the town open to a turning movement from Loges Wood, which has been penetrated deeply. Not alone however, is Roye menaced by this later advance, but the evacuation from woods southeastward the French are in a position to outflank Laucourt and with the French troops in the Oise Valley near Rimecourt also strategically placed to begin a rolling up process which, if successful, would obliterate the hill and wooded country now standing as a barrier to the capture of Noyon.

Taken altogether the position of the allied troops on the Somme-Oise salient is materially better than it has been for several days. Retirement of the Germans on parts of the northern front continues but these maneuvers as yet lack definite explanation. Following the evacuation of the evacuation of front line positions north of Albert, which were taken over by the British has come another voluntary relinquishment of trenches in the Lys sector. The village of Vieux Berquin has been given up and ground over a front of about five miles to a depth of one to two miles has been ceded without fighting. All the way between LaBassee canal and Ypres the Germans still are exhibiting signs of nervousness and daily are bombing the British front heavily with shell and gas projectiles.

Along the Vesle river front the Germans are similarly deluging the positions held by the French and Americans with shells, gas projectiles, and bombs from airplanes but their efforts have gone for naught so far as causing a relinquishment of territory is concerned. The American aviators are busily engaged in bombing operations behind the German lines, especially against the bridges leading northward across the Aisne river. The American artillery also is paying strict attention to the areas behind the line to harass the Germans.

On the other battle fronts little fighting of moment is taking place altho the Italians have been forced to sustain several counter-attacks by the Austrians in the Tonale region.

TIME NOT YET RIPE.—London, Aug. 16.—According to a Copenhagen dispatch to the Exchange Telegraph company, Professor Eden, the Swedish premier replying to a deputation from the Swedish organizations of Good Templars who asked whether one of the chief obstacles to take the initiative regarding peace negotiations said that as there was no reason to believe that the belligerents were willing to consider mediation Sweden could not commence negotiations.

Sweden, the premier added, was following the present developments with great interest and was at the disposition of the warring powers should any desire for mediation be expressed.

COMMISSIONED CAPTAIN

St. Louis, Mo., Aug. 16.—Harry B. Hawes, nationally known Democratic politician has been commissioned a captain in the United States army according to a despatch from Washington.

Hawes, a wealthy attorney will be assigned to service with the general staff. He accompanied Mrs. Adolphus Busch, widow of the brewer, here from Switzerland on her recent return from Germany.

COUNCILMEN SUBPOENAED.—Chicago, Aug. 16.—Ten city councilmen were subpoenaed today to appear before the Grand Jury tomorrow in an investigation of bribery charges resulting from the passage Monday of a traction ordinance which provided for municipal operation but not ownership of surface and elevated street railways. Macley Heyne, states attorney has charged that bribes of from \$3,000 to \$5,000 were offered aldermen for their votes favoring the ordinance.

BUILD RAILWAY

Paris, Aug. 16.—(Havas Agency)—A railway behind the French front has been built in less than 100 days and yesterday was opened for traffic. Its purpose is to improve the communications between the northern and southern parts of the front.

The construction involved the building of two important bridges and a tunnel 775 yards in length.

BUDGET PROVES INSUFFICIENT TO MEET WAR NEEDS

Fund for Rail Improvement Has Been Increased

(By The Associated Press) WASHINGTON, Aug. 16.—The so-called billion dollar budget approved early this year by Director General McAdoo for railroad improvements and equipment has proved insufficient to meet war needs and has been increased to \$1,097,398,000 or \$156,000,000 more than the original aggregate of budgets of all federally controlled roads. This was disclosed today in a detailed report of capital expenditures authorized to date.

Most of the increase was made necessary by the growing need for cars and locomotives. Originally \$486,000,000 was authorized for purchase of new rolling stock, but this has been raised to \$655,686,000 by huge orders placed by the railroad administration.

In addition to new cars and locomotives, the budget of the first class roads provided originally for \$433,000,000. This has been pared down to \$404,000,000, chargeable to capital accounts, but additional work costing \$105,000,000 has been authorized to be charged to operating expenses.

The \$20,000,000 approved early this year for extensions and branch tracks has been raised to \$35,000,000.

The \$1,097,000,000 now authorized for additions, betterments and equipment does not include an additional \$125,652,000 which will be considered as part of railway expenses.

The huge program of railway improvement indicated by these new figures is now being carried out partly in the big car and locomotive building shops of the country and partly with the aid of an army of engineers, laborers, masons, builders, steamfitters, telephone linemen and track layers in thousands of places along the rail lines.

The biggest single item in the additions and betterments, consists of yard tracks, sidings and industry tracks.

The actual outlay under the improvement program has been about \$400,000,000 officials estimate. Actual reports show \$221,914,000 up to July 1, including \$102,000,000 for additions and betterments, \$110,000,000 for cars and locomotives and \$8,000,000 for extensions.

MAY REGISTER BY MAIL AUGUST 24

Provisions Made by Provost Marshal where Persons Expect to be Absent on that Date.

Washington, Aug. 16.—Provost Marshal General Crowder issued a statement today emphasizing that all male citizens who shall have reached their 21st birthday since June 5 last must appear before the local boards to register for military service on Aug. 24, regardless of any presumed grounds for exemption. Opportunity to claim exemption will be afforded subsequently in the filling out of questionnaires by registrants.

Registration will be made for the registration by mail of any persons who expect to be absent on registration day from the jurisdiction of the board where he permanently resides," says the statement. "But in such a case extreme care should be taken by him to see that his registration card reaches his home board on or before August 24. Such persons are advised to apply at once to a local board for instructions as to how to proceed."

FIVE FATALITIES

Washington, Aug. 16.—Five fatalities in aviation accidents for the week ending Aug. 10, were reported tonight by the war department. Two deaths occurred at Tallafiero Field, Fort Worth, Texas, and one each at Gernster Field, La. Post Field, Fort Sill, Okla., and Scott Field, Belleville, Ill.

ENJOY ANOTHER DELIGHTFUL DAY

Manchester, Mass., Aug. 15.—President and Mrs. Wilson had another delightful day for their brief outing on the north shore. Business cares, except for a few conferences with Col. E. M. House, who had a summer home nearby, apparently were dropped.

The president went out early and remained until late this afternoon. Before breakfast he went for a walk with Mrs. Wilson. Later he had a round of golf with Dr. Cary T. Grayson, his physician, and lunched with Colonel and Mrs. House.

LABOR CONDITIONS WILL BE DISCUSSED

United Mine Workers District Presidents Will Hold Conference in Washington, Aug. 22.

(By The Associated Press) Indianapolis, Ind., Aug. 16.—Labor conditions in the coal mining industry for which "the only logical solution is a substantial flat wage increase to be applied to all classifications of mine labor" will be discussed at a conference of district president of the United Mine Workers to be held in Washington, Aug. 22, according to an announcement made here tonight by Frank J. Hayes, president of the United Mine Workers of America.

The wage increase "can be met and applied by the coal operators with out the necessity of an increase in the selling price of coal to the consuming public," asserted the miners' official who added that the paying of bonuses by many mine owners now "is indisputably evidence that the industry is able to bear an advance in wages."

The labor condition in brief has been discussed. President Hayes says, by many mine owners paying bonuses in excess of wage scale in order to obtain and keep miners in their mines. Mr. Hayes' statement continues:

"If wages are not increased to those not now receiving bonuses to the equivalent of the bonuses now being received by other miners, then the industries faces a sure and certain loss of needed manpower."

"For the protection of our entire war program, to keep the wheels of basic industry going full blast it is necessary that a wage adjustment be made on a basis that will put an end to the wholesale competition for men and hold the miner to the mines where he would likely to remain if but given the equivalent wage possible for him to receive in other industries."

Mr. Hayes then refers to a conference between officials of the fuel administration and the international officers of the United Mine Workers, held in Washington, July 29 and 30 and quotes a letter addressed to Dr. H. A. Garfield, United States fuel administrator and signed by President Hayes, Vice President John L. Lewis and Secretary William Green of the United Mine Workers.

The officials of the miners, in their letter, approve of a substantial flat wage increase to be applied to all classifications of mine labor throughout the country, saying: "Such an action would only make general and official what is now being done by the operations in substance and effect and such an increase can be met and applied by the coal operators of the United States without the necessity of an increase in the selling price of coal to the consuming public. In the emergency, which is now unquestionably facing the mining industry we are convinced that no other plan save the wage increase we suggest will meet requirements and properly protect the interest of our nation."

FIND MINES ALONG AUSTRALIAN COAST

SYDNEY, N. S. W., Aug. 16.—The finding of additional enemy mines along the Australian coast is announced.

Two enemy mines were reported destroyed off North Cape, the northern extremity of New Zealand on June 13, last. The supposition is that these and others were laid by a German commerce raider.

THE 42nd DISTINGUISHES SELF

Washington, Aug. 16.—The forty second (Rainbow Division) particularly distinguished itself in the fighting east of Rheims July 15-16 when the German offensive was launched on both sides of the city only to be stopped and the Germans later driven out of the whole Aisne-Marne pocket. A general order issued by General Naulin, commanding the twenty first army corps, to which the American division was attached in the French fourth army under General Gouraud, commends the forty second for its "valor, aror and its spirit" in the battle when the "tenth army broke the German offensive on the Champagne."

RETAIL CLOTHIERS MEET

New York, Aug. 16.—The National Association of Retail Clothiers in convention here today elected William A. Bodenhansen of St. Louis as president to succeed James Lynch of Minneapolis. Fred Lany of Louisville, Ky. was re-elected first vice president and Andrews Burkhardt of Cincinnati second vice-president. A. Frankel of Des Moines, Iowa, was chosen treasurer and Charles E. Wey, also of Des Moines, secretary.

HANGED FOR MURDER

Joliet, Ill., Aug. 16.—John Cloures colored, was hanged here this morning for the murder of Henry Findley, also colored, last September. Both were prisoners in the State Penitentiary. Cloures serving a life term for murder. Cloures kept his nerve to the last and walked unassisted to the scaffold.

APPOINTED AUDITOR

Washington, Aug. 16.—The federal reserve board today appointed John A. Will, auditor of the federal reserve bank of St. Louis and W. W. Paddock, examiner of the Philadelphia Reserve Bank, as federal reserve examiners.

SUBMARINE SETS LARGE OIL TANK STEAMER AFIRE

Members of Crew Taken Off By Life Guards

(By The Associated Press) BEAUFORT, N. C., Aug. 16.—A large oil tank steamer is afire about 25 miles off Cape Hatteras according to reports brought here tonight. A submarine is lying close by. The members of the crew have been taken off by life guards. It is presumed the submarine is a German and the tanker was set on fire by shell fire.

"Nothing to Be Given Out."—Washington, Aug. 16.—At the navy department tonight it was said "there is nothing to be given out" regarding the attack on a large oil tank steamer by a German submarine off Cape Hatteras reported in a dispatch from Beaufort, N. C.

It was generally believed that the German U-boat, probably the same one which recently destroyed Diamond Shoals lightship off Cape Hatteras had run short of oil and had attacked the oil tanker with the purpose of replenishing its supply. After taking direct hits were observed in the thought probable the submarine had shelled and set fire to the tanker.

HOSPITAL RECORDS WILL BE AVAILABLE TO ALL

WASHINGTON, Aug. 16.—Exact information concerning wounded and sick American soldiers admitted to hospitals overseas will be made immediately available to relatives or friends of the men under a plan being worked out at the war department.

Secretary Baker said today he had visited the office of Surgeon General Gorgas to look into the daily reports from the hospitals with a view to having them carded, catalogued and tabulated so that the most instant information can be given to all inquirers. The hospitals records, Mr. Baker said, will be brought here weekly by courier from France and thus it will be possible to give the exact nature of the wound or the disease from which the men are suffering. The information will be available thru the adjutant general. The task will be a big one but the war secretary believes the information should be available.

ACCEPTED FOR ADJUDICATION

Washington, Aug. 16.—Labor controversies at thirteen places were accepted for adjudication by the National War Labor Board today, and were assigned hearings before sections of the board on dates in the near future. The cases include: Building Trades Union against Employes, Cleveland, O., to Messrs. Guerin and Worden; Federal Labor Union against the Emerson Brantingham Manufacturing company, Batavia, Ill., to Victor A. Olander and W. H. Vandervort; Employes against Corn Products Refining company, Granite City, Ill., to Messrs. Olander and Michael.

APPOINTED INSPECTOR

St. Louis, Mo., Aug. 16.—K. P. Aldrich has been appointed inspector of postoffices in Missouri (except Kansas City), Iowa and Arkansas, with headquarters here today, and was assigned to hold the position of the board on dates in the near future. The cases include: Building Trades Union against Employes, Cleveland, O., to Messrs. Guerin and Worden; Federal Labor Union against the Emerson Brantingham Manufacturing company, Batavia, Ill., to Victor A. Olander and W. H. Lloyd George is the dominant power in England today. He is quoted more often than the king of the country.

The movement of troops of the Kaiser toward Berlin is of far greater interest to us just now than any peace movement he may launch.

The recent prohibitions of commissions to men from civil life does not apply to the medical reserve corps, as both physicians and surgeons are still greatly needed.

The "Stip" society is one of the newest organizations. Its members are pledged to "save till it pinches" so that Berlin may be sooner captured.

Women of Iowa will continue to make "cotton-proof" trench underwear for soldiers from this state, despite the recent statement that the garments were unsatisfactory.

All men registered under the selective draft law should carry their registration and classification cards always. To have both cards handy may save them annoyance some day.

Miss Alice Mudd, of Winchester, is a democratic candidate for superintendent of schools over in Scott county. And the name of any mere man who dares to contest her for the office will probably be "mud" too when the ballots are counted. — Franklin Times.

A bronze honor roll to contain the names of Springfield men who are serving or will serve in the United States ranks against the central powers is to be erected there. Money to purchase permanent tablets, about \$2,500 will be raised by popular subscription in small amounts.

Frank Farrington, state president of the United Mine Workers of America, has declined an invitation to act as a member of a labor mission to visit Great Britain, France and Italy, on the ground that he can be of more use to our government and the cause of labor by remaining at home. Mr. Farrington is a man of good

judgment.

THE BEAST OF BERLIN.

Women who are doing work in connection with our armies in Europe are sedulously kept away from the front, says a writer recently returned from Picardy. This is to minimize the risk of their being taken prisoners. Here is a commentary upon culture more effective than any which could be put into printable form of words.

A minister recently varied the spirit of the American people when, in a prayer that our boys might return safely from overseas "whole in body and mind and soul" added, "But, O Lord, if they must fall, let them fall with their faces to the front."

OVER-CONFIDENCE.

There is sound sense in the warning against over confidence as a result of successes on the Western front. This war is still being fought on Allied territory, and an aggressive campaign is certain to be a sanguinary one, as the Hunns have learned. We may win in a few months, but that is a very remote possibility. The only wise and safe course to pursue is to plan for a war covering several years, and to save, and give, and prepare accordingly.

CONTINUE AT SCHOOL.

With the approach of another "first day" of the school year the young people are pondering over the school problem. President Wilson, Secretary of War Baker, Commissioner Claxton, Secretary of the Navy Daniels, and leading educators of the country are uniting in a campaign which will tell the young people: "Finish the High School, enlist and go to college." Boys are advised that by preparing now to serve efficiently in the future they are doing their patriotic task.

LIFE SAVING.

Gen. March has permitted the publication of some interesting statistics on casualties based on the experience of the French and British armies during four years of war.

In brief, they are as follows: Of wounded sent to hospitals fewer than one in twenty die. Of wounded and sick sent to hospitals, only about forty five in a thousand die. Of all soldiers wounded in action over 80 per cent return to service, many of them in less than two months. Only 14.5 per cent are discharged for permanent disability.

When the history of the war is written one of the most remarkable chapters will disclose the advance made in the treatment of wounds, the prevention of disease and the salvage of life and bodily health thru modern medical and surgical work.

FEDERAL REGULATIONS.

Regulations governing the taking of migratory birds, adopted as a result of international action binding on the United States and Canada, have been promulgated by the President of the United States. The new law gives

effect to the terms of the treaty which effectually protects such birds in most of the North American continent, and in the main there are only slight changes in the law as it existed before the treaty. Under its provisions there is no spring open season, and the fall open season is made more uniform thruout the country. Nevertheless, the several States have the right under the terms of the act to make and enforce their own regulations when these are not inconsistent with the Federal rulings, but such State regulations may act only to afford additional protection to migratory birds, and not to extend the open seasons beyond those just promulgated, nor to authorize methods of taking birds not sanctioned in the Federal act.

THE RIGHTS OF COLORED PEOPLE.

Rights of negro citizens in Illinois will be safeguarded in any new constitution adopted by this state, Governor Frank O. Lowden has assured Representative Benjamin H. Lucas of Chicago in a letter. The issues of whether a constitutional convention is to be called will be decided at the polls in November. Governor Lowden's letter is as follows:

"I have never even heard it suggested that if a new constitution is framed in Illinois it will contain anything which can be any possibility be injurious to your race. If a new constitution is submitted to the voters of this state, I have no doubt that it will guard the rights of the colored race equally with the rights of the white race. In other words, such a constitution, to be adopted by the people, would have to be framed with a view to the interests of all our people without reference to race or religion."

"In my opinion those who assert that a new constitution will be framed which will be harmful to the colored people are not true friends of the colored people. I think your action in supporting the constitutional convention was entirely you to credit rather than blame."

PRESIDENT WILSON FOR WAR-TIME SCHOOLS.

President Wilson urges generous support for schools of all grades during war time. In a letter to Secretary Lane approving the Bureau of Education's plan for an educational campaign this summer and fall he says:

"I am pleased to know that despite the unusual burdens imposed upon our people by the war they have maintained their schools and other agencies of education so nearly at their normal efficiency. That this should be continued thruout the war and that, in so far as the draft law will permit, there should be no falling off in attendance in elementary schools, high schools or colleges is a matter of the very greatest importance, affecting both our strength in war and our national welfare and efficiency when the war is over. So long as the war continues there will be constant need of very large numbers of

men and women of the highest and most thorough training for war service in many lines. After the war there will be urgent need not only for trained leadership in all lines of industrial, commercial, social and civic life, but for a very high average of intelligence and preparation on the part of all the people. I would therefore urge that the people continue to give generous support to their schools of all grades and that the schools adjust themselves wisely as possible to the new condition to the end that no boy or girl shall have less opportunity for education because of the war and that the nation may be strengthened as it can only be thru the right education of all its people. I approve most heartily your plans for making thru the Bureau of Education a comprehensive campaign for the support of the schools and for the maintenance of attendance upon them, and trust that you may have the cooperation in this work of the American Council of Education."

BRINGING BACK MARRIED TEACHERS.

"Repeal the married teacher regulation," says Dr. P. P. Claxton, U. S. Commissioner of Education.

"Reports from some cities indicate that a few school boards have not yet taken action to abolish the rule barring married women from teaching. This rule never did have much to recommend it, and the war has made it impossible of enforcement. Every woman who is a native husband is needed, and marriage is no bar."

One teacher writes to the Bureau of Education: "I wish to call your attention to a situation which prevails thruout the Middle West and urge your influence to remedy this injustice. As you know most of the large cities will not employ married women as teachers in the high schools. As you also know the War Department has placed in Class 1, all men whose wives are educated to earn a living. Many of these women were teachers in the larger high schools. These positions are now closed to us and we must teach in a small town—several subjects in which we are indifferently prepared—at a small wage."

—all because these women are giving themselves in answer to their country's call. Is this exactly fair? Kansas City, Mo., Kansas City, Kans., Topeka, Kans., and many other cities have courteously returned all applications saying they employ no married women."

For the information of school boards that may not have seen Commissioner Claxton's statement of March 8, 1918, appealing to married teachers to return to schools, the Bureau is asking that the following paragraph be reprinted: "There are in the country scores of thousands of persons, mostly women, of good scholarship and professional training, who have had successful experience as teachers but who have retired from active service because of the war. Many of these might render valuable service again in the school. As a means of relief in the present crisis, I recommend that they be called again into active service and that laws, ordinances, and regulations of school boards prohibiting married women from teaching in the public school be suspended or repealed."

RIPPLING RHYMS

THE KAISER'S DREAM.

The Kaiser dreamed that he would reign from Naples to Alaska; his subjects would be found in Maine, and up in Athabasca. He'd ride in state thru Boston town and swaggle in Toronto, and see the peoples kneeling down—where has the vision gone to? Oh, Wilhelm ate some liverwurst one night before retiring, and saw himself in splendor burst upon a world admiring. He had a throne set up in Cork, another one in Lansing, he saw, thru Rochester, New York, his retinue advance. The nations bowed to hail their lord, revered his two-faced eagle; he gave the vanquished as reward a smile sublime and regal. Oh, Wilhelm ate some rancid cheese before he sought his slumbers; a lot of batty dreams like these he had in endless numbers. If you eat goose before you sleep and dream you're Alexander, you say, "Hereafter I will keep away from goose and gander." But Wilhelm thought his dreams were sane, and not the fruit of sausage, and so he spoiled with bloody rain the age of peace, the boss age. May he be reigning on a rock, when this grim war is ended, some lonely crag where seagulls flock and all the woes are blended.

THIS DATE IN HISTORY

August 17, 1861—L. J. S. Turner, of Wayne Co., Ill., was appointed Secretary of Washington Territory.

For the past seventeen years, about this season, the buying public has enjoyed an opportunity to purchase MEN'S NEGLIGEE SHIRTS OF FRANK BYRNS' Hat Store at real bargain prices. Until Sept. first, the present prices on men's Negligee, Madras or Silk Shirts will remain the same which are really much lower than the prices for the same qualities will be for those reproduced later. DEATHS

Holle.

Henry H. Holle, son of Mr. and Mrs. Henry Holle, 306 East Independence, died Friday evening at 7 o'clock at Passavant hospital where he has been a patient with typhoid fever for about three weeks.

Mr. Holle was born in Jacksonville, May 28, 1882, being 36 years of age. He was married to Miss Hettie B. McDonald, Nov. 29, 1914, daughter of Mr. and Mrs. John McDonald, north of the city, who survives him.

He is also survived by one son, Donald; father and mother, three brothers, Daniel and Fredrick of Jacksonville and Herman of Decatur; also two sisters, Mrs. Carrie Salisbury of Hindsdale and Mrs. Emma Wilkison of Springfield.

He was a member of the Lutheran church, a kind and loving husband and father. He has been in the employ of F. J. Andrews for the past thirteen years.

The funeral arrangements will be announced later.

Wellinkamp.

William Wellinkamp, aged 40 years, died at Springfield hospital Friday morning at 6:15 o'clock. Becoming seriously ill Monday he was removed from his home five miles northeast of Meredosia, near the Lydia church and taken to the hospital at Springfield.

There he underwent an operation for appendicitis late Monday evening.

Undertaker C. E. Williamson went to Springfield yesterday morning and took the body to the home of the young man's father, Henry Fricke, who resides near the home of the deceased.

Mr. Wellinkamp is survived by the widow, and two sons, aged four and seven years, and five brothers and three sisters. In March, 1907 he was united in marriage to Miss Cynthia Fricke and to this union there were born three children, one of whom died in infancy.

Funeral services will be held Sunday afternoon at Lydia church. Burial will be made at the Lydia cemetery.

NOTICE

All persons knowing themselves indebted to the late G. T. Litter, will please call at the store in Litterberry and settle their accounts as soon as possible.

WITH THE SICK

Norman Sheppard of North Prairie street who has been ill at Passavant hospital with typhoid fever the past four weeks is improving slowly.

Mrs. James B. White who was injured in a runaway last Monday night and was taken to Passavant hospital Tuesday is somewhat improved.

MATRIMONIAL

Basham-Stapleton.

Hobart W. Basham and Miss Lee Stapleton of Alexander were united in marriage at the court house Friday at high noon by Judge William E. Thomson. The ceremony was witnessed by County Clerk C. A. Berryman and C. C. Berryman. The groom is a farmer and they will reside on a farm near Alexander.

McMurray-Husted.

The marriage of Rev. Irwin McMurray of Powhattan, Kans., and Mrs. Minnie Husted of Roodhouse was consummated Friday afternoon at two o'clock by Rev. E. L. Fletcher at his residence, 620 West College avenue.

Rev. McMurray, now in charge of the Methodist church at Powhattan, was formerly pastor at Roodhouse and had the church there. He has had a number of good charges in Illinois, but was recently assigned to his present place in Kansas.

Mrs. McMurray has for a number of years been prominent in church circles at Roodhouse and was a worker in the church at the time of Rev. McMurray's pastorate there.

After a short trip Rev. and Mrs. McMurray will return to Powhattan to make their home.

SECOND PROCLAMATION OF THE GOVERNOR OF ILLINOIS.

To the Women of Illinois: As the war goes on, the difference between the Prussian ideal of womanhood and the American ideal of womanhood becomes clearer every day. In the view of the military caste of Prussia, woman's function is to bear soldiers and to be the slave of man. Under the "Kultur" which proclaims force the controlling factor in the universe, woman, of course, must become subordinate to man.

The American ideal, looking to the finer and spiritual qualities of woman, gives her a higher place in our scheme of life. America believes that moral force must, in the end, control mere brute force. Therefore, the future of women depends upon the utter overthrow of the Prussian ideal of womanhood.

The women of Illinois cannot better show their appreciation of what this war means than by a general registration. More than half a million women of our state, by registering, already have been mobilized for wartime service. This is a great accomplishment indeed. We should not rest, however, until every woman who cares for the future of her sex and her children shall have registered her willingness to serve in this cause.

Writes From Over There.

Miss Helen Hempel has received the following letter from her brother, Carl:

On Active Service With American Expeditionary Force July, 1918.

Dear Helen:

Well, I arrived here all O. K., and am feeling fine. Had a fine trip on the way over and never got seasick. The country is very pretty and all the flowers are in bloom. It rains here every day. The people and their customs and the towns seem very old fashioned to me. They are about fifty years behind the times, compared with the U. S. Have been looking for some mail, but haven't received any yet. It will sure seem good to get some mail again after not getting any for so long, so write often and let me know all the news around home and I will write as often as I can.

Yours truly, CARL.

TO CAMP BY THE MISSISSIPPI

Byron Carpenter has come home from the vicinity of Keokuk where he has been working on a farm and has acquired a good coat of tan and a marked improvement in health. He is to drive the family car back to camping ground above Keokuk where there is all manner of fishing along with other ways of having a good time. Mr. and Mrs. George Bundy are to accompany the Carpenter family and all are anticipating a fine time. Mrs. Carpenter says they sometimes catch channel cat fish there weighing ten to fifteen pounds each.

HAS ENLISTED IN MARINES.

Paul D. Scott, son of Mr. and Mrs. W. T. Scott, residing east of the city has enlisted in the Marines and will leave Monday by way of Springfield for Jefferson Barracks, St. Louis. After a few days there he probably will be sent to Paris Island for training.

DEAN OF WOMEN.

Miss Ruby E. C. Mason, for
three years dean of women and
lecturer in English at Indiana
university, has been appointed
Dean of Women at the University
of Illinois, to succeed Dean Fanny
Cook Gates, who resigned last
May, to become general secretary
of the Young Women's Christian
Association of New York City.

Miss Mason received her prepa-
ration for college in the public
schools of Stratford College In-
stitute and Loretta Academy at
Stratford, Ontario, Canada, and
at Loretta Abbey, Toronto, On-
tario. Her collegiate training was
obtained in the University of To-
ronto, from which she was gradu-
ated in 1895, receiving at that
time the degree of Bachelor of
Arts; at the Chicago College of
Law; at the University of Oxford,
England, and the Sorbonne, Paris,
France. The degree of master of
arts was conferred upon her by
the University of Toronto, in
1899.

Before becoming Dean of Women
to Indiana University she
served as principal of the academe-
tic department, Stanley Hall, Col-
lege for Women, Minneapolis,
Minnesota, and for three years as
Dean and Professor of English at
Belmont College, Nashville, Ten-
nessee.

COMMITTEE CLASSIFIES NATION'S BUSINESS

Agrees to Three Classifications of Business for Deduction from War Profits.

Washington, Aug. 16.—An eight per cent exemption in addition to a specific \$3,000 exemption on the excess profits of corporations, with a tax of forty per cent on all excess profits between eight per cent and twenty per cent and a tax of sixty per cent on all excess profits exceeding twenty per cent was agreed on today by the house ways and means committee. The committee in writing this schedule into the \$8,000,000,000 revenue bill also adopted the treasury's alternative plan for a flat eighty per cent tax on war profits. The committee agreed to three classifications of business for purposes of deduction from war profits.

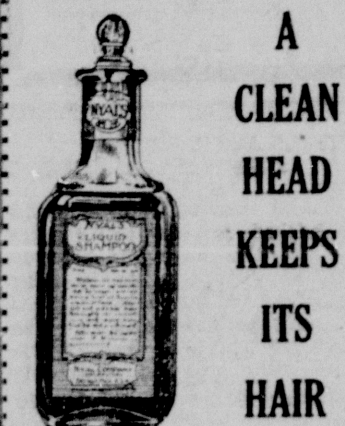

The deduction for pre-war profits is:

Financial and transportation corporations, eight per cent; manufacturing, farming and general business, ten per cent, and mining and kindred businesses, twelve per cent. Ninety per cent of the business corporations it is estimated will be effected by the war profits tax and the remainder by the excess profits tax.

Estimates show excess and war profits taxes will yield a total of \$3,000,000,000 which would bring the total of the bill much nearer the \$8,000,000,000 goal.

Chairman Kitchin of the committee said today that the treasury expected to submit tomorrow some further suggestions regarding the income tax. He said unless there is something to change the situation the normal income tax rate will begin with five per cent on the first \$4,000,000, the rate continuing up to ten per cent normal on \$5,000 where the surtax begins.

The surtax schedule, Chairman Kitchin said, probably would stand as agreed to with the following percentages: \$5,000 to \$7,500, three per cent; \$7,500 to \$10,000, six per cent; \$10,000 to \$15,000, ten per cent; \$15,000 to \$20,000, fifteen per cent; \$20,000 to \$30,000, twenty per cent; \$30,000 to \$40,000, twenty five per cent; \$40,000 to \$50,000, thirty per cent; \$50,000 to \$60,000, forty per cent.

DE HAVILLAND PLANE IN SUCCESSFUL FLIGHT

Machines Built in America and Equipped with Liberty Motors.

Washington, Aug. 16.—General Pershing today advised the war department that early in August a complete squadron of eighteen De Havilland Four airplanes, built in the United States and equipped with Liberty motors, successfully carried out the first reconnaissance flight of American-built machines behind the German lines. They returned without loss. This was the first report from General Pershing on the performance of American-built De Havillands to be made public.

NEW BOOKS AT LIBRARY

The following list of new books will be ready for circulation at the Public Library on Saturday morning, Aug. 17.

History.
Raemaker.—Cartoon History of the War. This is the first volume in a series of four containing the great cartoonists' drawings in chronological order.
Ross.—Russia in Upheaval. Edward Alsworth Ross, a trained American sociologist traveled 20,000 miles in Russia interviewing employers, labor leaders, food committees, editors, educators, and heads of workingmen's deputies. Professor Ross was in Russia when the Revolution began. He has a trained eye to see and a vivid style. He is to speak on Russia at the Jacksonville Chautauqua.

Poetry and Music.
Brewer.—Home Help in Music.
Richards.—The Melody of Earth. This is a charming collection of garden and nature poems from present day poets. You can gather its messages as you gather flowers to suit your need. Edgar A. Guest has learned in his garden that "It matters not what goal you seek."

Its secret and here reposes
You've got to dig from week to week
To get Results or Roses."
Theodosia Garrison remembers that—
"This is God's hospitality
Thee who rests beneath a tree
Hath cause to thank him gratefully."
And Sara Teasdale brings nature right into her life today
"I heard a woodthrush in the dusk
Twice three notes and make a star
My heart that walked with bitterness
Came back from very far.
Three shining notes were all he had
And yet they made a starry call
I caught life back against my breast
And kissed it scars and all."

Ideals.
Legler.—Library Ideals. In this chapter on the world of the world's work, Mr. Legler says "Turning for a text to Victor Hugo's stirring epic of Paris, these words may be found in the section for May and in the third chapter thereof:
"A library implies an act of faith
Which generations still in darkness hid
Sign in their night, in witness of the dawn."

When Johann Gutenberg in his secret workshop poured the molten metal into the rough matrices he had cut for separate types, the instrument for the spread of democracy was created. When early Cavaliers and Puritans planted the crude beginnings of free public schools, the forces of democracy were multiplied. When a half a century ago the first meager beginnings of the public library movement were evolved, democracy was for all time assured. Thus have these great stages, separated each by a span of two hundred years from that proceeding, marked that world development whose ultimate meaning is not equality of station or possession, but equality of opportunity.

Sinclair—Defense of Idealism.
"Presents in clear readable fashion what one clever writer after careful examination believes to be the strong and weak points of the competing philosophies of the day." * * * That she finds all philosophies compelled at last to admit a unity of things, and that this proves to her satisfaction that some form of idealism—the philosophy of unity—is on the whole the most acceptable, serves only to give her presentation an artistic completeness and put before the reader a well rounded argument for a philosophical system with which every educated person may be supposed to be at least acquainted."—Dial Dec. BLOOMINGTON STREET CAR MEN STRIKE

All Cars Sent to Barns, Men Object to Appointment of New Superintendent.

Bloomington, Ill., Aug. 16.—All street cars on the Bloomington and Normal lines were sent into the barns at ten o'clock this morning, by the management, following a strike of street car men.

It is claimed the men objected to the appointment of John Meece as new superintendent to take the place of T. H. Woods, who resigned to go farming.

Drivers of the Bloomington delivery system and express wagons also went on strike today.

Ever since the strike here about a year and a half ago, when troops from Chicago were encamped here the men claim things have not been running very smoothly. It is also claimed the agitation was kept stirred up by a local weekly paper published in the interests of the union men of this city.

BRAZILIAN SHIP SUNK BY SUBMARINE

Shelled By Sub About 35 Miles Off Norfolk, Va.—Crew Escaped.

New York, Aug. 16.—The Brazilian motorship Madrugada, 1641 tons gross, has been sunk by a German submarine off the American coast. Word of the loss of the ship was received here today in insurance circles. The crew was picked up by another vessel and will be landed at an Atlantic port.

The Brazilian motorship Madrugada, 1641 tons, was sunk by shell fire by a German submarine yesterday morning near Winter Quarter Shoal, 35 miles off Norfolk, Va. Captain Frederick Rouse and his crew of 21 men told of the destruction of the vessel upon being landed here today by a steamer which picked them up.

The captain and crew escaped in lifeboats and were rescued after rowing about for five hours. The Madrugada left New York two days ago carrying a cargo consigned to Santos, Brazil.

According to Captain Rouse the submarine appeared at 7:30 a. m., merging about 200 yards from his vessel and opened fire without warning, sending eleven shells into her. The crew immediately took to the boats and the ship went down within a few minutes. No attempt was made to molest the life boats. The captain estimated that the underwater boat was about 400 feet long.

SPAIN ADDRESSES NOTE TO GERMANY

Shows Germany's Poor Return for Services Spain Has Performed.

Madrid, Aug. 16.—In the note addressed by Spain to Germany regarding the torpedoing of Spanish vessels, announcement of the despatch of which was made by Foreign Minister Dato on August 8 the Spanish government points to Germany's poor return for services Spain has performed in pursuance of her neutral policy by which Germany has benefited, according to the newspaper, El Sol.

Germany has received numerous evidences of Spanish regard for the note says in substance as summarized by this newspaper such as in the case of the refugees from the Kamerun whom Spain cared for and it is pointed out that in addition Spain has undertaken the representation of German interests in various belligerent countries.

Nevertheless the note continues, in return for these services and for benefits accruing to Germany in consequence of Spanish neutrality, Germany has persisted constantly in causing injury to Spanish interests.

Here is Speedy Relief From Kidney Troubles
"Foley Kidney Pills have done me a heap of good."—A. T. Bartlett, Brockton, Mass.
Some days it seems as if you can no longer bear the pain and misery you suffer from kidney and bladder trouble. The ache across your back grows worse with every move you make, and with every step you take. It not only robs you of all your strength, but it affects the other important organs of the body as well. Nervousness, headache, disordered stomach, liver trouble, bad eyesight, are only some of the conditions that follow kidney trouble.

BENGAL POET RECEIVES LETTER OF CONFIDENCE

Connected With Hindu Conspiracy Trial in San Francisco.

New York, Aug. 16.—Sir Rabindranath Tagore, the Bengali poet, alleged to have been concerned in the plot to foment a revolution against the British government in India has cabled his publishers here a letter of confidence and sympathy which he says he received from Lord Chelmsford, viceroy and governor-general of India. The letter, dated Simla, June 17, signed by the viceroy's private secretary reads:

"The viceroy desires to express sympathy with you in finding your name dragged into such unwarrantable prominence in the American papers. He is well aware there is no foundation whatever for the suggestions made and is willing you should make any use of this letter you think fit."

Last February at the trial of more than thirty alleged Hindu conspirators in San Francisco, government attorneys introduced intercepted German diplomatic correspondence which appeared to show that Tagore and sought to interest Counts Okuma and Terachi former and present premier, respectively of Japan in the movement to establish an independent government in India.

Tagore, winner of the Nobel Prize for literature in 1913, was knighted by King George.

POSTAL INSPECTOR DISMISSED FROM SERVICE.

St. Louis, Mo., Aug. 16.—William L. Reid, inspector in charge of postoffices in Missouri, Iowa and Arkansas, with headquarters here, has been dismissed from the service. The dismissal, it is said, followed an investigation by post office inspectors from Washington of charges by a clerk that another clerk was disloyal and that he was retained in office by Reid after Reid knew his attitude on the war.

The alleged disloyal clerk has also been dismissed from service. Reid denies the charges as untrue and says he does not know why he was dismissed.

RELIEVING SKILLED LABOR PROBLEM

WASHINGTON, Aug. 16.—Shortage of skilled labor in war industries is being considerably relieved by restrictions upon non-war production, the department of labor today announced. Curtailment of automobile production alone has released many mechanics and other workers. There is still a serious shortage in many war industrial centers however, the announcement says, which can be relieved only by further transfer from non-war industries.

INDUSTRIAL DISTURBANCES.

Tokio, Monday, Aug. 12.—(By The A. P.)—Ten policemen have been wounded seriously and many rioters injured in a riot at Nagoya over the high cost of rice. Fifty persons have been arrested at Nagoya and 300 men and women at Osaka.

Industrial disturbances continue elsewhere. The police have succeeded in prohibiting meetings in Tokyo.

The price of rice has doubled twice in the past year due largely to a corner in the market.

ECONOMIZE \$25,000,000

Washington, Aug. 16.—By reduction of passenger service, elimination of freight train duplication and pooling of facilities under the government operation, economies at the rate of \$25,000,000 a year have been effected in the Northwest operating district, regional director Ashton reported today to director General McAdoo. More than \$20,000,000 of this was in passenger economies. Officials say the other six districts are making similar records.

DESTROYS WOOLEN MILLS

Stoughton, Mass., Aug. 16.—Fire today destroyed three mills of the French and War Woollen Company engaged on government work and a large stock of cloth for army uniforms. The loss estimated at \$400,000.

RAISE TAX VALUATION

Washington, Aug. 16.—Raising of tax valuations on the property of landlords guilty of charging extortionate rents to war workers, it was announced today, is one method by which the bureau of industrial housing, thru the co-operation of local city governments is undertaking to check rent profiteering.

INCREASES IN FRANCE

PARIS, Aug. 16.—(Havas Agency)—The total production of wheat in France this year is estimated at 50,000,000 quintals (183,500,000 bushels), being an increase of 25 per cent over last year's crop, according to the Intergovernmental.

As executive secretary to the mayor of New York City, Miss Frances W. Rokus receives a salary of \$4,800 a year.

GOOD REPORT FROM JACKSONVILLE M. E. DISTRICT

Rev. E. L. Fletcher, superintendent of the Jacksonville district, reports an increase of \$3,800 in pastors in his district the past year with \$1,800 more promised for the coming conference year and only half the churches canvased.

At Carlinville where he recently held quarterly meetings he reports a fine work being done by Rev. W. S. Phillips so well and favorably known in this city. The following complimentary resolutions were passed at the last meeting of the official board of Mr. Phillips' church.

"The Official Board of the Carlinville M. E. church, always glad to note every thing that indicates the general welfare of the church, take pleasure in the knowledge that the Jacksonville District is forging to the front in all departments.

"And we believe it no more than a just recognition of the zeal, tact, energy, pulpit ability, piety and kindness of our present District Superintendent, E. L. Fletcher, that we say here and now that we appreciate his efforts, and are always glad to have him with us, and we express the wish that he may be spared many years to work with us and for us and for the advancement of all that the church stands for in this part of Illinois."

REGISTRATION TODAY

Women will register today at the Avers Bank rest room, Hopper's shoe store rest room, and Bethel A. M. E. church, hours, 1 to 5 p. m. Those in charge of registration places are Mrs. Charles P. Ehnie, Miss Nettie Hayden, Mrs. Laura Lafayette, Misses Florence Rice and Florence Taylor, Mrs. George Stacy, Mrs. Clyde Singley, Mrs. Herbert Capps and Mrs. J. H. Clements.

Those girls who have become sixteen years of age since Nov. 1, 1917, are especially invited to register. All women who have not registered are urged to do so today. There are 855 women in Morgan county who "would not" register; 472 of these women are in Jacksonville. May it be that all Jacksonville women will have registered for their country at the close of this day.

GRAVES FAMILY EARLY PIONEERS

Jeremiah Graves Came to Morgan County in 1831—His Descendants Among Well Known Farmers of Community.

In 1831 a young man named Jeremiah Graves, a resident of Hartford, Connecticut, decided to take Horace Greeley's advice and try his fortunes in the far west then farther away than China or Japan today by a great deal.

With wagons he started out and by tedious stages made the long and arduous journey landing at last in a small village called Jacksonville near the central part of the new state of Illinois. His children consisted of four sons, William N., Dwight, Jeremiah and J. S.; and two daughters, Jane, who married Mr. Castle and moved to Nebraska, and later to Kansas City, and Mary, who married a man named Perry.

Mr. Graves was a carpenter and builder and in early days had a good house to which he invited young Prof. J. B. Turner and wife when first they came west and in their home little Adolphus, the first of the Turner family, was born. Mr. Graves built the Illinois college dormitory or club house which was afterward burned. He built the house so long occupied by Rev. L. M. Glover and now owned by Mrs. Mary Fairbank on Grove street, at the termination of Westminster street. He also owned 80 acres of land a short distance west of town, land which was later a part of the Jack Leach farm and after that owned by W. H. Rowe.

In 1840 he moved to Franklin and later to Waverly and in 1850 went to his daughter, Mrs. Castle, living near Madison, Wisconsin, where he died in 1855.

His son Jeremiah carried on a farm near Waverly until 1864 when he moved to Waverly where he spent the rest of his life.

J. Spencer Graves was a Congregational minister and served various churches in this and other states and died in Niles, Michigan in 1895.

William lived near Waverly and was many years ago carried off by cholera.

N. Dwight married Ruth O'Neal daughter of Thomas O'Neal, in 1848 and lived two miles north-west of Franklin till 1864 when he moved to a farm on the Liberty Church road and now occupied by his son, Thomas O. where he lived till 1878 when he moved to another place about four miles from Jacksonville on the Meredosia road or Burlington Way where his wife died in 1903 and he passed away Sept. 16, 1909. His sons are William S. and Charles H., who live in joyful singleness of hearts on the old home place where their parents died.

Thomas O., married Miss Anna M. Denby, April 27, 1882. They are the parents of one daughter, Miss Ruth. Mr. Graves has 160 acres of land as fine as any that lies out of doors and is well cultivated and supplied with the best of buildings. It is doubtful if a more careful farmer is to be found anywhere. His place is occupied with crops and grass and not weeds; not an implement is permitted to lie out of doors after it is used and he and his family know how to enjoy life. They have a fine automobile and both father and mother drive it and enjoy their lovely home and many neighbors.

FRANK BYRNS' Hat Store will continue the present prices on men's Negligee Shirts until Sept. first.

DEATH RESULTS FROM ALTERCATION

Finis Maupin Died from Injuries Inflicted by Sam Coop, Following an Altercation—Coop Held in Cass County Jail at Virginia Without Bond.

Virginia, Aug. 16.—Finis Maupin died here today as the result of wounds received from being beaten over the head with a club by Sam Coop, a blacksmith of the city, Thursday evening about 10:30 o'clock.

It seems that the two men had trouble earlier in the day, and that night Coop drove up in front of the Petefish pool room where Maupin was and jumped out of his car and knocked him down with the leg of a chair which he had carried with him. The first blow knocked Maupin down and Coop continued to beat him until police interfered.

Maupin was given medical attention and taken to his home where he died Friday noon, without regaining consciousness. Coop was placed under \$500 bond Thursday evening, but upon the death of Maupin he was lodged in the county jail and held without bond.

Maupin was about 21 years old and was employed in the brickyard at the time of his death. He, with his parents, had moved to Virginia about three years ago from Kentucky. Coop is a blacksmith in Virginia and about thirty years old.

Deputy Coroner C. F. Epler of Beardstown was called and held the inquest Friday afternoon. The verdict rendered was that Finis Maupin came to his death by blows on the head by a blunt instrument in the hands of Sam Coop.

Feeling is very strong against Coop in the city.

CENTENARY'S PASTOR, REV. W. R. LESLIE WEDS TODAY

Rev. W. R. Leslie, the worthy young pastor of Centenary church, left recently for Champaign where he is to be married at 8 this evening to Miss Marie Rutenber of the university city at the residence of the bride to be, Mr. Leslie's mother, Mrs. Mary Leslie, and sisters, Misses Madge and Anna expected to leave for Champaign this morning to attend the wedding. The newly married pair except to go to Washington, D. C. and other places and be away some three weeks. Tho he has been here but a year Mr. Leslie has won a great many friends by his kind and courteous demeanor toward all and by his fine ability as a preacher. It is probably safe to say that Centenary seldom if ever had a more popular and efficient pastor.

Miss Rutenber is a popular young lady widely known and highly esteemed and all will unite in congratulations and good wishes for the newly married pair.

A MILLION BUSHELS OF WHEAT IS MORGAN CO. CROP

Food Administrator M. F. Dunlap announces that up to the 10th of the present month there had been threshed in this county as reported, 791,397 bushels of wheat. At that time there was not much in shock not yet threshed and a large amount in stacks so that it is doubtless safe to assume that the crop for the present year will amount right at a million bushels, much greater than the crop of any preceding year and it goes to prove that the farmers of this county are patriotic and ready to help win the war by all means in their power.

This wheat has been sold, mostly at \$2.05 to \$2.12 a bushel so that it would bring nearly \$2,100,000 which is a pretty neat sum for one crop. Then when a man gets \$3,000 to \$4,200 for a load of cattle and \$1,500 to \$2,200 for a car load of hogs it will be seen that the farmers are receiving some money tho of course it takes higher priced corn to produce the stock.

MISS CAIN IS ENTERTAINING GUESTS

Miss Catherine Cain is entertaining Miss Virginia Fay of Brookfield, Mo., and Miss Margaret Karr of Belleville at her home south of the city. Miss Cain has just returned from a two weeks' visit in Kirksville, Mo., where she attended a house party at the home of Miss Margaret Baxter.

CENTRAL CHRISTIAN CHURCH MISSIONARY SERVICE

Dr. Paul Wakefield, Living Missionary for the Central Christian church will speak at the morning hour of worship at the church on Sunday. He has been in the U. S. for a year on a furlough and will start back to Lu Chow Fu, China, next week. It will be a great privilege to see and hear him again before his return to the old world. His message will be most interesting and helpful. Members and friends of the church and the strangers in the city are most cordially invited to be present at this service.

Dr. Wakefield is in charge of a hospital at Lu Chow Fu and the facts in the case refute the silly argument that it takes a dollar to get a cent to the heathen. In this hospital 30,000 patients are treated annually, more than at the Cook county hospital in Chicago. Three million people have only this hospital for educated and capable medical treatment and come to it within a radius of 100 miles. It is almost like all Illinois, except Chicago, having one medical dispensary and one doctor.

Lu Chow is a large city with almost 100,000 inhabitants and

was the ancestral home of the great Li Hung Chang and his family. A great many Chinese are converted by means of this hospital and its sensible methods. Only think: \$1,000 pays the running expenses and for all the medicines of the hospital of a year. Don't you think missionaries are good managers.

ALL CHAUTAUQUA TENTS AND CHAIRS HERE.

The large assembly tent and all the individual tents and chairs for the chautauqua have arrived and will be put in place in time for the great event to begin next Friday. As is well known the tents are of the best and everything possible will be done to make them safe and comfortable. All indications point to a record attendance and surely if the people of Jacksonville and territory tributary to it have any appreciation of a choice and valuable program they will attend in large numbers. The chautauqua should be enthusiastically supported by all who are in anyway able and there are enough to make the enterprise a grand success this year.
